THE BOARD OF EDUCATION.

ITS FIRST MEETING ON WEDNESDAY.

A REDUCTION OF SALARIES OF TRACHERS AND SUPERINTENDENTS-WOMEN COMMISSIONERS. At the meeting of the Board of Education on Wednes-ay next five new Commissioners appointed by Mayor Brace in November will take their seats. Two of these, Mrs. Mary Nash Agnew and Miss Grace H. Dodge, are the first women who have ever occupied seats in the Board. The other new Commissioners are E. Walter Webb, Samuel M. Purdy and Randolph Guggenheimer. older Commissioners who at first looked forward ith some anxiety to the participation of women in their Seliberations, now look farward to their presence with considerable interest. Mr. McMullin, clerk of the Board, has arranged to place the la ites together in the and Perkins. These are two of the most desirable desks. The ladies will have at the desks adioining them Comoners William Wood and Isane Bell, two of the oldest and best informed members of the Board of Educa-tion on public school affairs. The deak behind them is d by Commissioner Gallaway, vice-president of he Elevated road, and Mr. Schmitt.

The Board of Education will have several important nestions for it to solve the present year. Among the cost important of these is the introduction of industrial incation in the schools. A committee had this subject inder consideration has year, but its report has not-re-ulted in any specific action. The Committee on the Course of Studies now having this in charge has directed Superintendent Jasper to make a thorough investigation of what has been done in industrial education in the principal edites of the United States. The superinterdists and his assistants are now essaged in this work, and a report will be make by him to that committee in a few weeks. It will then be brought before the Board to desermine what step should be taken to introduce it in the sabecils.

report will be mass y min to that committee it will then be brought before the Board to determine what step should be taken to introduce it in the schools.

A more urgent question for consideration will be that of salaries. The appropriations for salaries have been generally reduced this year by the Board of Estimate. It will be felt most severly among the teachers and superintendents. In the Normal College a reduction of mearly 10 per cent will be required in the salaries of the precident and the teachers. The total for teachers salaries allowed for the year. Is \$2,750,000, the same amount as was allowed last year, of which about \$25,000 was returned to the city. The Board of Education asked for \$2,800,000 for salaries for 1887 to provide for the moreone of teachers in the schools, and \$50,000 for fifty new teachers in new schools now being built. The amount asked for teachers in new schools was not allowed, and new teachers will have to be paid from the total dispropriation for teachers in new schools was not allowed, and new teachers to have the Board of Estimate appropriate \$35,000 to make the Board of Estimate appropriate \$35,000 to make the Board of Estimate appropriate. One of the teachers, speaking of the salaries and on Saturday;

L'The most unfair feature in the school system is the present distribution of teachers' salaries and especially those of primary teachers. There are 1,500 primary teachers, and fully 500 of these have taught for at least ten years and are receiving to-day less than \$7,00. While of the 300 male teachers is environmentally to see a second of the salaries from \$1,700 to \$2,000. When they teach in eventual set from \$1,700 to \$2,000. When they teach in eventual set from \$1,700 to \$2,000. When they teach in eventual set from \$1,700 to \$2,000. When they teach in eventual set from \$1,700 to \$2,000. When they teach in eventual set from \$1,700 to \$2,000. When they teach in eventual set from \$1,700 to \$2,000. When they teach in eventual set of the main and the salaries even though in fa

PROMISES OF THE RACING SEASON.

LARGE LIST OF ENTRIES FOR STAKE RACES-A NEW RULE PROPOSED.

A spirit of compromise has prevailed among the various ciations east of the Potomac River and the lisputed question of dates is now settled. Entries to important stakes which closed on January 1 are in. Promnent turfmen throughout the country have signified their intention of bringing their stables East once more. Stakes are richer than ever. Good horses have multipiled. It appears, therefore, that the season of '87 will be a prosperous one. The stakes of the Coney Island Jockey Club and the number of entries in each are as

Suburban, 106; Sheepshead Bay, 94; Universal, 75; Coney Island, 32; Coney Island Cup, 20; Selling Sweepstakes, 68; Beacon, 52; Spindriff, 52; Spring, 81; Great Two-year-old Selling, 56; Bridge Handleap, 51; Flight, 24; Great Eastern Handleap, 96; Bay Haige, 60; Knickerbocker, 55; Equality, 76; Rapid, 68; Sporting, 59; Swift, 44; Emporium, 68; Esphyr, 81; June, 84; September, 55; Autumn, 123; Flatban, 37. The Futurity stakes for two-year-olds, to be run for in

1889, received 814 entries of mares expected to foal this year. This will make the race worth some \$65,000. The Brooklyn Jockey Club's closed stakes and the entries bave also been announced. They are:

Expectation, 72; Hudson, 77; Belford, 68; May, 64; Tre-mont, 74; Carrion, 65; Clarendon, 49; Brooklyn Derby, 22; Falcon, 68; Garelle, 44; Brooklyn Jockey Club Handicap, 73; Brooklade Handlap, 97; Myrtie, 85; St. James Hotel, 38; Brooklyn Cup, 29.

The Brooklyn Jockey Club Handicap is to the new and

burban is to the Coney Island Club at Sheepshead. One of these days it may become as famous; already it is a strong rival. The race is run nearly a month before the Suburban, and, as many of the same horses are entered in both, the former may serve af a guide to a forecast of the latter. Weights for each will be announced on Feb-

ruary 1.

The Brooklyn Jockey Club has invited all the racing associations east of the Potomac River to send representatives to a meeting which it proposes to hold on January 15 to consider the adoption of the following rule of racing proposed by Richard Hyde, a director of the club:

First—That not more than twenty-three days' saving shall be given in any one year on any trace owned or controlled by us, and that no purest or stake of a less value than \$400 shall be offered for competition.

offered for competition.
Second—That any norse that shall be entered to run upon any track where races take place for more than twenty-three days in any one year, or for a purse or stake of less value than \$400; and any fockey riding a horse on any such track, or fiding for a purse or stake of less value than \$400, shall there.

Silver be debarred from competing upon the tracks of the parties to this agreement.

That this is an excellent measure every conscientious purfman will admit. What a corrective it would be to Brighton, Clifton, Guttenberg and all of their kind.

MONEY FOR EVICTED IRISH TENANTS.

The snow of yesterday did not prevent enthusiastic rishmen who believe in Home Rule from being present in large numbers at No. 352 West Thirty-fifth-st., to listen to speeches and to subscribe money in aid of the Anti-Eviction Fund which Parnell called for some time ago. Roderick J. Kennedy presided, and in the course of his address said that no matter how they might differ from the policy now in force, or what criticisms they could offer on the chances of securing legislative inde endence for Ireland by persisting in lines of peaceful gitation, there was one matter upon which all were

agitation, there was one matter upon which an were agreed, and that was that the people who were being thrown out of their homes by ruthless landlords should not be left to perish.

Patrick J. Logan said that he didn't see any occasion to alter his opinion that the time had come when instead of throwing tafts of grass they should throw something that would knock fire out of England. When J. B. Murphy finished his speech some new members were added to the roll and \$60 subscribed.

James O'Safliyan was chairman of a well attended

inished his speech some new memoris were another to roll and \$60 subscribed.

James O'Sullivan was chairman of a well attended meeting of branch No. 33 at No. 195 Hudson-st. Patrick McCarthy, Thomas Kenealy, Robert Stewart and William Davis made speeches, after which subscriptions were handed in amounting to \$40. The district was then parcelled out into sections and organizers entrusted with lists to call upon every sympathizer with Home Rule.

The Grattan Club met in the afternoon at Congress Hall, No. 192 Third ave., and elected officers for the year. John Conway, James Clarke and Daniel Buckley were elected president, treasurer and secretary, respectively. Treasurer Buckley said that a check for \$1,000 had been handed to the municipal council, and he had at present nearly another \$100 on hand.

TAMMANY GENERAL COMMITTEE.

The Tammany General Committee will meet on Friday wening at the Wigwam in Fourteenth-st, and organize evening at the Wigwam in Fourteenth-st and organize for the year. There will be comparatively few changes, Ex-Judge A. B. Tappan will probably be again elected chairman; Thomas F. Gilroy will be the reading secretary; Police-Justice Gorman will be re-elected treasurer, and there will be the usual number of ornamental vice-chairmen and secretaries, one from each Assembly District. The final disposition to be made of the XXIVth Assembly District, dividing the representation between the Twenty-third and Twenty-fourth Wards, will then come up for action. There is no doubt that the recommendation of the Committee on Organization will then be acted upon. The new Committee on Organization will organize for the year at its next meeting. Sheriff Grant will be elected chairman. For the last two years he has been acting-chairman only, John Kelly having been chosen chairman, aithough unable to attend any of the meetings.

SHOOTING HIS FORMER BARKEEPER. Bernard Mooney, a liquor seller of No. 213 Hamilton-ave., Brooklyn, discharged a bartender named William Quinlan, of No. 72 Fourth-st., on Saturday. In the even-ing Quinlan and a friend went into the liquor shop and ing Quinlan and a friend went into the index stop and called for drinks. Mooney ordered them out, but Quinlan refused to go, and took a stone out of his pocket to throw at Mooney. The latter drew a revolver and fired two ahots, one of which took effect in Quinlan's left side. The wounded man was cared for at St. Peter's Hospital. Blooney was arrested. He claimed he took out the revolver to frighten Quinlan and that it went off of i'self.

BALVATIONISTS AT A TEMPERANCE MEETING.

Moore was in charge of the Salvation contingent and le the singing, keeping time with his body, feet and hands But the portion of the entertainment which was most ap preclated was the singing of one of the womes.

"The devil and me don't agree-Glory, Hall dujah! Were the introductory lines of her song, and the sentiment was loudly applicated. A collection was taken up for the Salvationists and quarters, dimes and nickels rained into the tambourines, which pleased the company so much that they burst into a loud song of joy. The Salvation Army people will be at the meeting on next Sunday and a large audience is expected.

> NEWS FROM THE SUBURBS. ATTACKED BY SAVAGE DOGS.

ATTACKED BY SAVAGE DOGS.

Ravenswood, suburb of Long Island City, is overrun with stray dogs. Carrie, the ten-year-old daughter of Richard Farmer, of Webster-ave, and Hamilton-st., on Saturday afternoon started to go coasting on a hill with a number of school-mates. She had gone but a short distance from her home when a large mongrel dog and a white buildog sprang at her. They were immediately followed by two more dogs, and they all bore her to the ground. The buildog fastened his teeth in her right hand, while the others seized her clothing and tore is to pieces. Edward Cody, a laborer, hurried to the child's rescue. Three of the dogs ran away, but the buildog retained his grip on the child's hagd, and it was only after Cody had beaten him severely about the head with a spade that the bruie let go his hold. The little grif was taken to her home, where Dr. Ritchcock canterized the wounds. The wounds though painful are not necessarily serious.

ANOTHER DEATH IN THE AQUEDUCT. Robert McLerry, a Scotchman, age thirty-three was at the head of a gang of mon going to relieve the noon shift at Shaft No. 4 of the new Aquednet yesterday. When he got into the tunned a piece of rock came down, killing him instantly. The place where the accident happened was selected by the engineers to take their measurements, and was considered the safest place in that neighborhood.

JERSEY CITY.

The Easer Club on Saturday elected the following officers: President, A. Pennington Whitehead; vice-president, colonel treasurer, Andrew Serretay, Frederick Freihandsyson: Insacurer, Andrew Kirkpatrick; governors, H. P. Condit, H. C. Howed, John R. Emery, A. Q. Keastey, Daniel Dodd. It was decided to build an adultion to the club-house, which will contain billard-rooms, bowling alleys, and private dining and bed rooms for members.

About 500 people assumed in Grovest, near Bank'st, yesterday afternors, which witness the laying of the corner stone yesterday afternors, philip of Nor. the first Rooma Catholic yesternay and the church of N.C. Philip of Nert, the first Roman Catholic church for the Italians in Newark. The church is erected on land given by John McGillienddy. Among the clergymen present were Bishop Wigger and Vicar General Doane.

Jamarca. Three cases of diphtheria of a malignant type were yesterday reported to Dr. Nadal, the Health Officer. were yesterday reported to Dr. Navat, the Health Omeer.

RIVERBRAD.—While Miner Maynard was entertaining some friends on Saturday evening a party of young men invaded his house and destroyed several articles of furniture. As they were going out one of the men drew a revolver and shot at Mra. Maynard, The builte grazed her head and lodged in the walls, ware loaded with bird shot, into the crowd, severely wounding two of them. The wounded men were taken away by their companions. The more were all strangers to Maynard, and have not since been heard from.

A number of capitalists of New York and Staten Island, including C. N. Haskins, Eurene Crowell, A. S. Forbes and Caryl Coleman, have bought a large amount of property at West Brighton, and will bind a factory on it. A company has been incorporated, with a capital of \$1,000,000, called the Endolithe Marble Company, finished. The object is to manufacture colored and ornamental marbles, and to color and decorate ivory and other materials.

ALDERMAN QUINN WANTS " PROTECTION." County Democracy circles in the XVIIth District are somewhat stirred up over the action of Alderman Quinn, in naming Thomas Killilea, a nephew of Police Captain Killilea, as one of the clerks apportioned to the County Demogracy and Tammany Aldermen by themselves in cautwo years has been James J. Kearney, who is described as a capable young man, and one who, unlike most of the Aldermen's clerks, has been attentive to his duties. On the evening before Alderman Quinn named young Mr. Killilea as his clerk, there was a meeting of the XVIIth District County Democracy Association, and Alderman Quinn renominated Mr. Kearney for secretary, in a florid speech, teeming with eulogies of the

inec. He was elected by acclamation. It was a good deal of a damper on the young man, a goood deal of a damper on the young man, when, on the following day, Alderman Quinn named another man for the position to which he supposed there would be no question of his reappointment. The action of the Alderman has caused a good deal of unpleasant comment in the XVIIth District. Folice Justice Henry Murray is the County Democracy leader in the district, and between him and Senator George W. Flunkitt there is a feud of long standing. Senator Plunkitt is the Tammany leader. Captain Killitea's sympathies are with Tammany Hall. Therefore Justice Murray is not pleased with the action of his Alderman. Alderman Quinn is the possessor of two liquor shops in the district. It is alleged that when spoken to on the question of the appoint his nephew, and as he "wanted protection for his liquor stores, he could not refuse."

DELAY ON THE ELEVATED ROAD.

The passengers in two trains on the Third Avenue Elevated Railroad were put to great inconvenience yesterday morning by an accident to one of the trains and insuffi-cient steam in the locomotive of the other train to draw it up the grades between Ninety-ninth and Eighty-ninth sta-tions. A delay of fifteen minut-sin reaching the Chatham tions. A delay of fifteen minut-sin reaching the Chatham square station was caused and there was a blockade of trains between Houston and Fourteenth sta.

Locomotive No. 147, with a train of five cars not more than one-third illed, left the Ninety-ninth-st. station on the down-town track at 9:55 s. m., and from that point the train was dragged along at a snail's pace, though the throttle was wide open, and the locomotive was more than five minutes in climbing the grade to the next station at Eighty-ninth-st. From Seventy-sixth-st, to Sixty-seventh-st, the passengers had a similar experience of slow travel on an up-grade, the steam being hardly sufficient to keep the train in motion. The engineer said that he had a new lireman on board whom he was "breaking in."

in."

Keeping on down-town the train stopped behind a disabled train at Houston-st. It was found that the train abled had broken the draw-bar on car No. 179 and had been waiting ten minutes for assistance. The disabled train was pushed on to Grand-st. by its follower, and then locomotive No. 147 was detached and pushed the disabled train into the "pocket" at Chatham Square for repairs, after which the locomotive backed up to its own train and brought it to Chatham Square fifteen minutes behind time.

MR. WELLENKAMP KEEPS HIS CHILDREN. Judge Barrett on Saturday in Supreme Court, Chambers, denied the petition of Mrs. E. A. Wellenkamp to give her meeting of the Manhattan Temperance Association yesterday afternoon. The cause of the sudden interest in those meetings of the association was that a company of Salvation Army workers was present and enlivened the afternoon with original songs and speeches. President Gibbs was in his element and his face was expanded into a smile that lost itself in the roots of his hair and beard. His gesticulations, always of a violent order, were even wilder than usual. It was expected that Cojonel M. K. Light, of the Salvation Army, would be present and relate in detail its experience in the South, but he did not come. General imbered that after Mr. Wellenkamp had saved the

A MUSEUM BUILDING NEEDED. EFFORTS BY THE TRUSTEES TO SECURE MORE

SPACE FOR NATURAL HISTORY COLLECTIONS. The trustees of the Museum of Natural History expect to call on Mayor Hewitt as soon as he has recovered from the Legislature for a new building for the museum. Last winter nearly all the arrangements had been made for the new building, when the measure was delayed until it was too late. Two years ago measures had been taken that would have resulted in the completion of the building by this time had not the whole subject been dropped by those whose aid was depended on.

If the building were begun in the coming spring it

If the building were begun in the coming spring it would not be ready before 1889 and the trustees think that the addition should be begun this year or the work of the museum will be seriously crippied by the delay. The general plan as now determined on is to construct the addition on the south side of the present building. It will be large enough to hold and display all the exhibits of the museum for a number of years. A sufficient number of valuable collections are already stored away in the present building to occupy a large portion of the space in the new structure. One of the most important features of the new structure. One of the most important features of the new structure. It will also be available for other educational lectures. The trustees wish to have the hall large enough to seat 1,500 persons, and to afford all other facilities in connection with the museum itself in representing the various departments of natural history. On Saturday the first lecture given by Mr. Blekmore in his closing winter course was so crowded that the lecturer's platform was invaded. By actual count 115 teachers who had come to the lecture from different parts of the city were turned away from the overcrowded room. Until more room is obtained little can be done to accommodate the teachers for whom the lectures are given.

The members of the Park Board, who will act with the trustees in the construction of the new building, are in sympathy with them in this effort. When Mayor Insympathy will be deavor to bring this shout in connection with the efforts to obtain the new building. ld not be ready before 1889 and the trustees think
